MEMORANDUM FOR: Chief, Forces Division, ORR  
ATTENTION : [REDACTED] 25X1A  
THROUGH : Chief, Reconnaissance Group  
DD/I Collection Guidance Staff  
SUBJECT : Omsk Plant Voroshilov No. 174, USSR  
REFERENCE : Requirement No. C-RR5-82,346, NPIC Project No 11214-5

25X1D

1. In response to reference requirement, an analysis of KH Missions [REDACTED] was performed to determine any change in facilities at Omsk Plant Voroshilov No. 174 (54-56N 073-24E) since [REDACTED] locate open storage areas associated with the plant; and locate and identify any associated tank proving grounds or facilities.

25X1D

25X1D

2. Changes observed in the plant since it was reported out on TALENT [REDACTED] are (1) a new probable machine shop 390 by 195 feet, (2) a previously identified foundry and machine shop have been structurally connected with the combined building now measuring 680 by 155 feet, and (3) a previously identified machine shop has been expanded to 680 by 195 feet. The plant is fully described in [REDACTED] 25X1C "Munitions Plant-Railroad Repair and Tank Plant "Voroshilov" 174, Omsk" and USAF DPIR No. T-58-11, "Omsk, USSR". A few possible vehicles or crates were observed at the plant; however, positive identification and mensuration are precluded by haze and smoke. No open storage areas were observed within or in the immediate vicinity of the plant.

3. Two military areas containing tracked/wheeled vehicle driving ranges are located 6 nm south of Omsk at 54-51N/073-20E and 6.5 nm southeast of Omsk at 54-33N/073-28E. Both areas are adequately described and illustrated in NPIC/R-780/64, "Omsk Training Area, Omsk, USSR Siberian MD" and TCS-80218/65, OAK Part IV, KEYHOLE [REDACTED]
